Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 21 is rejected under 35 U.S.C. 102(b) as being anticipated by Sandor.

There is disclosed in Sandor a beverage brewing apparatus, comprising: a water inlet 131, 132 to provide water onto ground coffee; a retention vessel 120 to receive an aqueous liquid; a stationary ground coffee holder 113 positioned between the water inlet and the retention vessel and having a bottom effective to retain the ground coffee and permit passage of aqueous liquid; an agitator motor 110; a coffee agitator extending into the ground coffee holder, the agitator having blades 112 which project downwardly at an angle and have tapered ends (see figure 3); a heating element 114 in communication with the retention vessel; and a spout at the edge of the retention vessel to allow discharge of brewed coffee.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 3-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sandor in view of Lassota '717.

Lassota discloses the adjustment of the rate of release of hot water to ground coffee to allow for pre-wetting of the grounds and varied infusion concentrations.

It would have been obvious to one skilled in the art to modify the device of Sandor with that provided in Lassota, in order to pre-wet the grounds and control the concentration of coffee.

Allowable Subject Matter

Claims 9-13 and 17-20 are allowed.

Response to Arguments

Applicant's arguments filed March 11, 2005 have been fully considered but they are not persuasive. The added limitation of the agitator blades in claim 21 is disclosed in Sandor (see rejection above).

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1761

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
